08/04/2022 – 10/04/2022 Mostar

Hack At Home BEST

PROJECTS

Rijesi.ba - GOOD Hackathon Winner Project

The application "rijesi.ba" is an application that is based on direct contact with people who can make a change in the local community. The application has a similar structure to social networks, but its function is to publish everyday problems that arise in a local community.

Tech Stack:

- Flutter
- Figma

Together with my team "ZOI Code-84", we came up with a solution that won first place in a competition that had 15 teams and over 50 competitors from all cities of Bosnia and Herzegovina.

CineMotion - Movie App

Cinemotion is a comprehensive movie application offering a user-friendly interface for movie enthusiasts and an integrated admin panel with advanced tracking features for efficient movie management.

Tech Stack

- React Js
- Express
- Mongo
- Node
- TailwindCSS

Features

- Explore a vast collection of movies.
- User-friendly interface for seamless navigation.
- Integrated admin panel for efficient movie management.
- Advanced tracking features for administrators.

Brotherhood Membership Mobile Application

Developed a comprehensive prototype application designed to manage and track members of a club. This application encompasses various functionalities to ensure efficient and streamlined club management.

- Member Tracking: Efficiently monitor and manage the status and information of club members.
- Financial Management: Track financial actions including membership fees, donations, and other monetary transactions.
- Member Status Monitoring: Keep an up-to-date record of member activity, attendance, and participation levels.
- Success Metrics: Implemented features to measure and track the success of club events and activities.
